416.917.5768
masterconnect919@gmail.com

Desire to work as a Full Stack designer to gain continued experience and knowledge with different infrastructures. Constructed dynamic apps that feed elegant frontend React's desktop/mobile interface, while maintaining prudent practices.

"Learning is living" - Horace Mann

EXPERIENCE

Digital Master Connect, Richmond Hill — Developer

2020 - PRESENT

Provide a secure end-to-end service for the client upon request of the following:

- embeds dynamic SEO constructs for quick product/information update;
- Asynchronized backend emailing and load balancing through brokerage/worker (Celery/Rabbit) systems, if req.;
- Develop back-end server-base endpoints REST calls using front end requests;
- Develop Django/Python || SpringBoot backend package development;
- Developed some spring Boot backend packages;
- Use React/React Native as the primary front-end package - solid state machine;
- Develop backend REST syncs (calls) to drop-shipping Co(s) endpoints through hooks upon purchase/action completion;
- Develop AWS-secure/public file access via BOTO-3; and
- Deploy client's developed sites via AWS/ Heroku/git && Expo(:phone) processes.

Project Type:

- Store Front
 - Developed a fully integrated storefront using pure JS/CSS/HTML and PSQl infrastructures. This includes developing an administrative backend utility framework for account control.

SKILLS

PYTHON/JS/C++/SQL/PSQL

MATH: High level

ELECTRONICS: component
IC

WEB-FRAMEWORKS:

Django/(React+Express),

SpringBoot-mavin
(jdbc::postgres/jdbc::sql)

CRYPTO: Hash/Token, User
Accounts

BACKEND:

SQL/PSQL/(Python)/C++/Django/Rest_Framwork

FRONTEND:

html/css/js/React/React-native

UX DESIGN Tool(s):

Figma

ONLINE INTEG SERVICES:

Git/Heroku/AWS

Workers: RabbitMq, Reddit

- <https://www.master-connect.ca>:
 - Three level purchase option(optional based on client's needs);
 - Build,post-service,extra-service optional billing;
 - Each level is optionally triggered on milestone completion and executed by a check-task-completion system controlled by the developer;
 - All client notices are automated.
- The site holds over 32 pages of information and processing content; and
- The site holds 18 design front page specimens to view.

Mircom, Vaughan — (*Field,Application*) Eng

2012 - 2019

Project designed, managed, coordinated,implemented \$90K-\$500K condominium communication based projects and acted as 3rd-line support for all Mirom's communication systems, as well as:

- Coordinated sales level contract closures;
- Coordinated and design assisted new project and H/W improvements;
- Managed custom-client based projects; and
- Resolve technical 3rd-level issues(local/Remote).

Project Type:

- 1000-5000 (multinode) Condominium communication and security system;
- 300-1000 powerLine/RF-Zigbee fire-Alarm system;

DnD, Toronto— *Communication and Infor. Syst. Sec. Officer–Captain*

2007 - 2012

designed/coordinated communication and contract coordinated CFC projects and shortfalls such as:

- implemented/coordinated projects related to communication and physical/Information security systems;
- Manage billing/Project Finances;
- implemented course outlines;
- manage help desk personnel;
- Brief higher on project progress;
- Conduct quarterly PERS; and
- Acted as the department authority on electronic and communication technologies to higher

AWARDS:

Commander
Training/B.O.T.C/B.Eng
Elect/Information Security
System Information(ISSO).

LANG:

native-English/Bilingual
(French)

ACCOMP(S):

- Becoming a parent
- Serving my country in war;
- Achieving Captain lvl
- passion for coding.
- self-learner

BEHAVIOR:

- Enneagram:#5
- Overly-focused
- half-full-approach
- technical

Project Type:

- Security Systems DWAN installation instruction procedure;
- Public Works project implementation and contract negotiation;
- Create SOW for special projects to be contracted out.

DnD, Afghanistan— QA Contract Specialist Officer-Lieutenant

2006 - 2007
